SUMMARY

I am a nineteen year old that is a detail-oriented individual looking to achieve high programming and Photoshop techniques to aid consumers and business owners in fighting their media battles. I also enjoy building computers as a side hobby. I have built all kinds of PC's including, but not limited to water cooled and micro ATX style computers.

EXPERIENCE

Webmaster

August 2012 to May 2015

Lancaster Mennonite School, Lancaster, PA - Led the LMS website team by teaching the other members and helping them in furthering their programming knowledge as well as managing the www.lancastermennonite.org school website in and outside of school.
